Earth Changes

Announcements

Signs of the Times

The Zetas have long explained that discussions among the elite take place only face-to-face, for fear that an email or phone call will be tapped and the public become aware of the cover-up. They have apparently become frustrated with this restriction, and found a *new* way to communicate with each other – using the media! Of course, these messages are in code, having a dual meaning, but the intent is clear. Take the case of Prince Charles' message to the Heads of State at the G20 meet in Rio. Is he talking about saving the world from Global Warming or saving the British royalty?

Rio+20: Prince Charles in Climate Change Warning
June 17, 2012

<http://www.bbc.co.uk/news/uk-18479724>

"Like a sleepwalker, we seem unable to wake up to the fact that so many of the catastrophic consequences of carrying on with 'business-as-usual' are bearing down on us faster than we think, already dragging many millions more people into poverty and dangerously weakening global food, water and energy security for the future," he said. "One thing is clear. We need to be much more informed about the actual state of the planet. We do not have nearly enough knowledge on which to base the decisions that will be the best for the long term. Until we do, we expose ourselves to the mounting danger of major shifts in policy that are not well conceived, but come as panicked responses to crises that could have been avoided."

ZetaTalk [Explanation 6/23/2012](#): *Is Prince Charles talking about the mythical Global Warming issues or the pending Pole Shift? The latter issue seems to fit his words more closely. Global Warming after all was supposed to be gradual, with lots of time to make adjustments as the need became obvious. The Pole Shift will be sudden. Charles in fact is using a word WE, the Zetas, used extensively when first starting ZetaTalk – catastrophic. We called the Pole Shift the "cataclysms" in the [very first page](#) ever written for the ZetaTalk [Pole Shift section](#). What is he talking about when he says "need to be much more informed about the actual state of the planet"? He is clearly not talking about Global Warming, which has had so many fact gathering studies ongoing for years. He is complaining that NASA is not informing Heads of State!*

What "panicked response to crisis" is he worried about, when Global Warming is a slow moving crisis, projected to put the globe in danger only in 100 years or so? He fears closed borders for those on the British Isles, a trend that is already apparent. Britain will drown, and take to boats to even save its people,

with only a diminished island popping up here and there. Oh dear, no time or resources for royal treatment of dear Prince Charles! The "decisions that will be best for the long term" involve saving the monarchy, clearly. Charles and the Queen have been discussing the cold shoulder they are receiving around the world. The royalty will die with the Pole Shift, that is becoming clear. Why would Charles go public with such a warning? He is not present in Rio, as royalty does not stoop to such lowly activities. But he wishes to buttonhole the Heads of State that he feels should change their priorities. Save the royalty!

Then there is the matter of the \$42,000,000 clock! Certainly what the world has been waiting for, and the best use of \$42,000,000. It's function? To act like a clock. Is there a hidden agenda here, a hidden meaning? There is indeed, per the Zetas, who state the emphasis on "long term" planning by the billionaire using his small change for this gesture has yet another meaning – to encourage other billionaires to tend to their bunkers! Jeff Bezos of Amazon has recently delved into space shuttles, with his now defunct Blue Origins shuttle, as has Richard Branson with his Virgin Galactic. Escape into space will not provide safety, however, as they are coming to realize.

What Makes Jeff Bezos Tick? A \$42 Million Clock, for Starters
 TITLE
 June 19, 2012

<http://online.wsj.com/article/SB10001424052702304543904577395164138218638.html>

Mr. Bezos has already gained some fame with his Blue Origin space-travel project. But the 48-year-old, whose net worth is estimated at \$20 billion has financed a group, the Long Now Foundation, that is building what he calls "The 10,000 Year Clock" deep inside a mountain on his West Texas property, not far from his rocket-launch site. "The reason I'm doing it is that it is a symbol of long-term thinking, and the idea of long-term responsibility," said Mr. Bezos "It's going to be increasingly important over time for humanity to take a longer-term view of its future."

Virgin Galactic Space flights to start Within a Year
 September 16, 2011

<http://www.news.com.au/travel/news/virgin-galactic-space-flights-to-start-within-a-year>

A number of private companies are rushing to fill the gap left by NASA, which ended its 30-year shuttle program in July with the completion of the final Atlantis mission to the International Space Station (ISS).

ZetaTalk Explanation 6/23/2012: *What is the relationship between Richard Branson's Virgin Galactic plans to put those with money into space and perhaps even build a hotel up there, and Jeff Bezos's past efforts on his Blue Origin space travel project to shuttle to the ISS? Both these billionaires know what is coming, for planet Earth. They both know how the common man will suffer. Has this caused them to fund survival camps, moving the masses from the cities to places that are self-sustaining? They are part of the elite, and plan only for the survival of they and their friends. What then is to be made of a 42 million dollar clock? If Prince Charles is talking to Heads of State via the media, asking them to help the British royalty perpetuate itself, the elite are also using the media to speak to their fellow elite. This is, in essence, a telegram or a phone call, a card in the mail or a candy-gram. He is saying he wants them all to be concerned about the long term, not just the immediate future, and by that he means they should be concerned about bunker security rather than beach homes.*

India Steady Sink

The Zetas have predicted that India will be plunged under the Himalayas, and that the Indo-Australian Plate is steadily tilting in this direction as the 7 of 10 plate movements proceed.

ZetaTalk Prediction 1/21/2012: *India, which is continuing to sink throughout all the Earth changes. India will go down suddenly, during the hour of the pole shift, but the steady loss of elevation that is already in process will have made many parts of India soggy, and the populace frightened. Those pushed to the side, toward Bangladesh will find themselves pushed into the floodlands, floundering there. Those pushed toward Pakistan will also be slogging through floodlands, and then finding they have encountered the*

tiger's mouth as the Indus Valley is the sinking edge for the plate holding India.

This can be seen in the past month as sea water has assaulted the continent, from one side of the plate to the other, from Pakistan in the [Indus Valley](#) to [Chennai](#) on the east coast of India to the [Naaf River bay](#) on the eastern border of Bangladesh. There has been a sudden influx of seawater in a tsunami like fashion, though no quakes were reported. In the case of the Indus Valley flooding, the steady loss of elevation means that sea walls have become necessary and are crumbling from the assaults from the sea. Mumbai is shuttering regularly on a daily basis. The regular time for the [Mumbai shuttering](#), between 4:00 pm to 6:00 pm, shows this to be related to the Earth wobble, stress on the plate holding India during the daily shifting of the globe.

More than 30,000 People have been Displaced by Breach in Rohri Canal

May 15, 2012

<http://tribune.com.pk/story/378786/more-than-30000-people-have-been-displaced-by-breach-in-rohri-canal/>

More than 25 villages, in New Saeedabad taluka of Matiari district – including almost the whole union council of Bhale Dino Kaka submerged – causing between 30,000 and 40,000 people to lose their homes.

Giant Waves Flood Shore Temple in Mamallapuram

June 20, 2012

http://articles.timesofindia.indiatimes.com/2012-06-20/chennai/32334353_1_giant-waves

Giant waves, more than 12 feet high, hit the northern side of the famous shore temple at Mamallapuram, 60 km from Chennai, on Tuesday evening, leaving the heritage monument three feet deep in water. Sea water gushed inland for about 75 metres, leaving behind a pool of water.

1 Killed, 7 Missing as Boats Capsize in Naaf River
June 16, 2012

http://www.daily-sun.com/details_1-killed,-7-missing-as-boats-capsize-in-Naaf-river_176_1_10_1_0.html

Seawater entered the locality through the broken embankment and marooned at least 15,000 villagers of the upazila. According to sources, seawater rose about two meters above the normal level in the Teknaf area flooding a vast area of the upazila. The tidal surge affected villages are Jalia para, Side para, Khankar Dail, Sudar para, Dakkin Jalia para, Nazir para, Moulavi para, Mondal para, Panchhari para, Majer para, Dakkin para and Paschim para. At least 400 houses, 15 shrimp farms and 200 acres of crop land and salt beds have gone under 2 to 3 feet tidal water.

Spooked by Mystery Tremors, WR asks for Met Dept Probe
June 13, 2012

<http://www.punemirror.in/article/3/2012061320120613115918190273fc7f3/Spooked-by-mystery-tremors>

A series of unexplained, low-intensity tremors being felt on a daily basis in two separate pockets in south Mumbai over the last few weeks have forced office-goers to ask for a detailed seismological investigation of the area. The offices being affected include the higher floors in a row of buildings, particularly Bharat House and Apollo House, at Bombay Samachar Marg in Kala Ghoda, and the Western Railway's headquarters and administrative buildings on both sides of the road at Churchgate. The tremors occur between 4 and 6 pm every day, almost like clockwork, and last about 2-3 seconds.

UFO Plethora

The Zetas predicted at the start of the ZetaTalk saga in 1995 that UFO sightings would be on the increase, including mass sightings, and this certainly has been the trend. Sightings are getting into the media like never before, despite the official cover-up over the alien presence. Per the Zeta, this is because the media does not want to look like it's out of touch.

ZetaTalk [1995 Prediction](#): *Sightings will increase. An increasing number of photos and videos will develop.*

ZetaTalk [Explanation 6/23/2012](#): *In step with the increased mass sightings around the world, the establishment is allowing documentary films on UFOs to be aired. The cover-up crowd would prefer they not do this, but others in the establishment argue that they will lose credibility if they ignore the obvious. Ignoring the increasing sightings, often mass sightings seen by entire cities, looks like a cover-up, and that would raise even more questions in the public mind. So documentaries, using past footage and reports, are being trotted forth. It is not a sincere attempt to educate the public, nor a sincere admission that a cover-up has been ongoing, but merely a reaction on the part of the establishment to avoid future embarrassment.*

UFO sightings [documented](#) only this past month show how widespread they now are, and how often the media gives them center stage! UFO's have buzzed the cities of [Atlanta](#) on June 4, [Moscow](#) on June 23, [Phoenix](#) on June 1, over [Utah](#) on June 19, over [Sweden](#) on May 31, to name but a few, and they hit the press or were a topic on TV in Russia on June 20, [Missouri](#) on May 29, California on June 6, and Tijuana on May 30.

'Catamaran' UFO Filmed over Russia (Video)
June 20, 2012

<http://news.gather.com/viewArticle.action?articleId=281474981416142>

A weird, new kind of UFO, shaped like what can only be described as a catamaran boat hull, was filmed in the cloudy twilight skies over an unidentified city in Russia.

UFO Splits into Glowing Triangle over Apple Valley

June 6, 2012

<http://news.gather.com/viewArticle.action?articleId=281474981380359>

A glowing orb hovering over the skies of Apple Valley, California on Monday split up into three distinct orbs comprising the now familiar triangle UFO shape in an extended video of the sighting posted to YouTube. What is it?

Disc-Shaped UFO Scares Tijuana Residents

May 30, 2012

<http://news.gather.com/viewArticle.action?articleId=281474981365334>

A mysterious UFO sighting last Friday had some Tijuana residents wondering if their city was being visited by extraterrestrials. The strange disc-shaped vehicle is motionless throughout the video, and you can clearly see pulsating lights on the top and bottom of the craft.

Tornados Worldwide

Tornado alley in the US expects tornados, though the record breaking onslaught that occurred in 2011 and may yet occur in 2012 is new. But tornados are occurring all over the world, in places where never seen before, or rarely so. The Earth wobble roils the atmosphere, which is the reason the Zetas long ago predicted the Earth would see an [increase in tornados](#), and see them in areas not used to tornados. They knew the Earth wobble was going to arrive, and this would be the inevitable result.

ZetaTalk Prediction 9/15/1999: *Massive tornadoses such as recently tore through Oklahoma will not go away, but will be on the increase and will occur in places that do not experience such tornadoses.*

Japan: Not Fukushima Again! Now it's Tornados?

June 22, 2012

<http://politicsandfinance.blogspot.com/2012/06/not-fukushima-again-now-its-tornados.html>

One of the most powerful tornadoes ever recorded in the nation hit Tsukuba, about 170 kilometers (106 miles) southwest of the Fukushima Dai-Ichi facility. The tornado, one of four to make landfall on May 6, ripped through an area 17 kilometers long and 500 meters wide. The twisters killed a teenage boy, injured 50, wrecked nearly 300 houses and raised concern among scientists about tornado risk at the Fukushima plant, where explosions last year blew roofs off pools holding spent uranium fuel rods.

Saskatchewan: Twisters Touch Down in Saskatchewan

June 15, 2012

<http://cjme.com/story/photos-twisters-touch-down-saskatchewan/61785>

Twisters and funnel clouds were spotted near the Town of Biggar, Wilkie and Unity. A twister was spotted near Compeer on the Alberta border northwest of Kindersley.

Venezuela : Tornado in Venice

June 13, 2012

<http://classmeteo.weather.com/meteo/portale/news/tornado-a-venezia-danni-allisola-di-santelena/>

Yesterday morning around 11:15 am on the Lagoon of Venice has formed a real tornado, which hit in the middle of some of the islands, especially those of St. Helena and St. Erasmus, where there is substantial damage to pine forest to the boats, small and large size.

Hungary : In the Wake of Tornadoes Nyíraczádi

June 14, 2012

<http://www.haon.hu/a-nyiracsadi-tornado-nyomaban/2007330>

85 year old never seen like this before, but he said he would never forget this one. His house is damaged, and not safe.

US: 100 Tornadoes in 24 Hours, but Plenty of Notice

April 16, 2012

<http://www.nytimes.com/2012/04/16/us/violent-storms-cut-across-the-central-plains.html?ref=earth>

The tornadoes were unrelenting — more than 100 in 24 hours over a stretch of the Plains states. They tossed vehicles and ripped through homes. They drove families to their basements and whipped debris across small towns throughout the Midwest. In some areas, baseball-size hail rained from the sky.
