**Obama as Lincoln**

The issue of Obama as Lincoln has once again hit the press, with an overlay of Obama's face on Lincoln's face on the popular Drudge Report. Where Drudge begrudges Scallion (pardon the play on words) with the credit for drawing the connection, the issue first arose in May of 2007 when Gordon Michael Scallion predicted on the popular Coast to Coast broadcast that "Lincoln shall return to occupy the White House again" and then predicted that Obama would win the election. Many parallels between Lincoln and Obama have since been noted.

*During the broadcast Gordon-Michael mentioned his May 2007 prediction at the Edgar Cayce Prophecy Conference when he said, "If there are no new entries into the field, then Lincoln shall return and occupy the White House again". He then named Obama as the next president.*

For Obama Followers

November 10, 2012

<http://www.pedigreedatabase.com/forum.read?mnr=671080-for-obama-followers>

*The media has taken note that Obama is fixated on the Lincoln presidency, mentioning for instance that he wants a "team of rivals" to advise him, as Lincoln had done. Obama announced his candidacy at Springfield, IL as Lincoln had done. Both Obama and Lincoln were lawyers from Illinois, served in the state legislature and then briefly in the U.S. Senate. Could the spirit of Lincoln be returning, as an African-American, to finish what Lincoln set out to do?*

This issue was last noted on November 16, 2008 in [Issue 105](#) of this newsletter, when the Zetas confirmed Scallions insight and added that Obama was a walk-in during his teens.

**ZetaTalk Confirmation 11/8/2008:** *Obama was also Lincoln, as is obvious to many, including Gordon Michael-Scallion. Most Star Children recognize early that they are different, and sense the reason why. In Obama's case, he was a walk-in during his teens, so was able to choose the body and life circumstances for his mission. In such cases, where a walk-in occurs, the human body and mind sense a change, and seek an answer for this, arriving at the conclusion that they have a new soul within.*

Lincoln mania has since evolved, with two movies with the Lincoln theme emerging to hit the screen in late 2012. The first, a serious film, has proven to be a block buster with many accolades and awards. The second, a spoof, has Lincoln as a vampire hunter.

## Sandy Hook Conspiracies

Conspiracy theories abound about Sandy Hook, fanned into flames by the NRA and gun manufacturers who see themselves becoming billionaires overnight with increased demand. Quick, buy your guns before they are outlawed! "Everyone would be safe if only every toddler were armed with an AK47" is the cry, as though more guns were the answer. Statistically one is more likely to get shot in their own home by a family member than elsewhere by a stranger. Nevertheless, conspiracy theories range from:

1. It never happened and the kids are safe, living someplace else. (Citing some closed caskets and some parents identifying their children by photo, rather than viewing the bodies.)
2. It was all staged so Obama could take away our guns. (This ignores the assault weapons ban that the Tea Party dominated House allowed to lapse, which the majority of American's feel should be reinstated.)
3. No one person could be that accurate, making those many kills, just compare to other mass shootings and look at the death rate. (This ignores the accuracy of the shooter, who had Asperger's syndrome, wherein bothersome emotions such as empathy are reduced and accuracy and attention to detail enhanced to a remarkable degree. Also, a small target will take a bullet to a vital organ or artery where a bullet to an adult is more likely to only cause a flesh wound. Adam also went to target practice with his mother. )
4. Adam had his brothers ID which is fishy. (Why wouldn't a younger brother, a teen, fish ID out of the garbage if he wanted to posture as and buy things as an adult? Such as guns and ammo, which requires an adult status in Connecticut.)
5. The medical examiner assumed the wrong weapon had been used, a gun later found in the shooter's car, unused. (The medical examiner was filmed and quoted in the heat of the day of the shooting, outside the school. This was before all the evidence such as bullets had been collected and examined. It was certainly before all the autopsies had been done, which took days.)
6. Someone was arrested in the woods, thrown to the ground, handcuffed, proving there was more than one shooter. (Anyone found in the woods, even neighbors coming to see what the fuss and shots were all about, was subject to arrest. Adam came in the door just ahead of the 9:30 am lockdown, having a high IQ and a mother who was aware of community events. Adam hardly needed assistance to get into the school. The doors were open. )

Man Who Helped Sandy Hook Kids is Harassed by Conspiracy Theorists  
January 15, 2013

<http://news.yahoo.com/blogs/lookout/gene-rosen-sandy-hook-conspiracy-155033813.html>

*A man who found six children in his driveway in Newtown, Conn., after their teacher had been shot and killed in last month's school massacre has become the target of conspiracy theorists who believe the shootings were staged. Adam Lanza, the 20-year-old gunman, had shot his way into the school and opened fire, killing 20 children and six adults.*

Per the Zetas, compared to the *real* conspiracies that were rampant during the Bush administration, when the desire to invade Iraq for its oil reserves and to declare martial law in the US via a bird flu pandemic were in play, the theories on gun control are absurd.

**ZetaTalk Comment 1/19/2013:** *In a nation where 911 truthers are ridiculed, when the facts are on their side, is it any wonder that conspiracy theories arise when the right to bear arms is involved? The evidence that 911 was an inside job is overwhelming. Dick Cheney was conducting an exercise in DC on that day, so those wanting to muster fighter jets against the airliners were confused. Was this a real attack or the exercise? A member of the Bush family was put in charge of security at the twin towers just ahead of the attacks. The buildings were brought down in a controlled demolition, by explosives planted in the days before the attack. But does this then mean that every conspiracy theory is correct?*

*During the Bush administration numerous attempts were made to incite martial law. The FBI found that the "accidental" release of the [1957 bird flu virus](#) to 4,000 labs around the world during the Bush era was not an accident, but no one was ever prosecuted. Numerous attempts to plant a dirty bomb in a US city were foiled by ourselves, unbeknownst to the public. No such plans are pending under Obama, but those who resent his control of the White House would say otherwise. Cries of secession and impeachment abound. Where were they when freedom in the US was under real threats?*

*Those who would convince the public that Obama is out to remove all hunting rifles and pistols from the public are having a field day with the Sandy Hook massacre, pointing to statements made by the media and the medical examiner on the day of the shooting, and video showing the police searching the woods and arresting anyone found there. Information was live that day, rolling out before the facts were in. Adam was claimed to be his brother Ryan, based on ID carried by Adam so this teenager could buy things that required adult status. Ryan had a room in the family home, until recently, so Adam had ample access to the trash or his brother's room.*

*If the media was confused about the identity of the shooter, the medical examiner could hardly be more precise on the day of the shooting. Before all the bodies had been moved, before any autopsies had been conducted, a statement by the medical examiner as to his assumptions on the weapons used is hardly definitive. Likewise, that the police were aggressive in searching the woods and arresting anyone found walking there should not be surprising. As it became clear that a highly intelligent teen with Aspergers syndrome had slipped into the school just ahead of the 9:30 am lockdown, loaded with guns from his mother's gun chest, and systematically shot his targets with the precision that those with Aspergers syndrome are known to possess, the conspiracy theories only accelerated.*

*After the dust had settled and the facts were in, the motives and methods were logical and consistent. The home was stocked with an arsenal. Adam had been taken to the range for target practice by his mother. Adam was highly intelligent, and given his Asperger's syndrome was able to control his emotions during his rampage. Adam expected to escape, using his brothers ID. Adam anticipated becoming an adult soon, and inheriting the funds his mother had formerly controlled. His mother was in the process of filing papers allowing her to continue to control his funds, and by this signed her death warrant. Snatches of information reported by the media before the facts were in hardly warrant proof of conspiracy theories.*

Meanwhile, those resentful about Obama's second term have gone berserk. Cries for impeachment and succession from the union are heard. Meanwhile, Obama presses forward in his attempts to remove assault guns from the streets.

*A Republican state lawmaker in Wyoming has introduced legislation to prohibit enforcement of federal gun control measures. State Rep. Kendell Kroeker (R-Evansville) has put forward a bill making it a felony to enforce in Wyoming any federal ban on assault weapons or high-capacity gun magazines. Under the supremacy clause of the U.S. Constitution, federal laws take precedence over state laws. States can only opt out of federal mandates connected to accepting federal funds.*

## Sunda Still Sinking

Monsoon flooding in Jakarta is worse than ever, as recently reported on the [Pole Shift](#) [ning](#). Coincidentally the flooding in Sumatra and all along the edge of the Sunda Plate (being shoved under the curve of the Indo-Australian) is likewise simultaneously severe! Why not elsewhere? Because elsewhere is not experiencing an elevation loss. Where the 7 of 10 sinking of the Sunda Plate had reached the degree predicted by the Zetas (as noted in [Issue 283](#) of this newsletter on March 4, 2012), the final chord had not yet been sung, apparently. If the Presidential Palace in Jakarta is awash, can this be considered in anyway normal and expected?

### Presidential Palace Inundated

*Severe flooding following torrential rain has driven almost 10,000 people from their homes in the Indonesian capital.*

### Flood Inundating Thousand Houses in S Sumatra for Week

January 8, 2013

<http://www.antaranews.com/en/news/86697/flood-inundating-thousand-houses-in-s-sumatra-for-week>

*The flood that has inundated thousand houses in Banyuasin district, South Sumatra, since a week ago has not yet receded.*

What might this have to do with a US Navy Minesweeper running aground in the Sulu Sea, as reported by the [Pole Shift ning](#)? Where the Philippine Islands are primarily on the Sunda Plate (except for the north Island of Luzon), they have been above the sinking afflicting the rest of the Sunda Plate due to the folding of the Philippine Plate under the east edge of the Sunda Plate. But per the Zetas, during the final crunch, the Philippine Islands will sink too.

**US Minesweeper Stuck on Reef off Philippines**  
January 17, 2013

<http://www.abc.net.au/news/2013-01-17/us-navy-ship-runs-aground-off-philippines>

*The USS Guardian ran aground on the Tubattaha Reef on Wednesday night "during normal transit", the US embassy in Manila said in a statement. The extent of the damage to the ship and the cause of the accident was still not known.*

**ZetaTalk Prediction 11/27/2010:** *The tilting of the Philippine Plate give the Philippine Islands a temporary boost up also, as these islands ride on the eastern edge of the tongue holding Indonesia. Meanwhile, the*

*tongue holding Indonesia has been plunged down, ultimately pulling both the Mariana and Philippine plates down as they fold.*
