### **General Allen Resigns**

What is the nexus between the Super Dome blackout on February 4, the Zombie Appocalypse warning on the Emergency Broadcast System in Montana on February 11, Pope Benedict's resignation on February 11, and the recent resignation of General Allen on February 19? They all have to do with the pending announcement on Nibiru, aka Planet X, by Obama. General Allen was identified as part of the cover-up crowd, but unlike General Petraeus was not caught in a scandal sufficient to force him to resign last November.

**ZetaTalk Insight 11/24/2012:** *If the DIA and the CIA were the primary source of the 3% fighting to keep the cover-up in place, what might they be planning to unseat Obama? Petraeus and Allen were both among the top brass working to keep the cover-up, and trying to embarrass Obama. The FBI was instructed to involve Allen, as his flirtations were likewise known.*

The Zetas have now revealed that clearing General Allen of any shreds of the Kelly scandal was part of a ploy to embolden him, and Obama's odd golfing weekend away from Michelle and the girls was likewise a ploy to fools those who would block the announcement. They stepped out of the shadows, to block the announcement, and were caught!

General John Allen Cleared of Misconduct  
January 22, 2013

*General John Allen, the commander of NATO forces in Afghanistan, has been cleared of military misconduct allegations for exchanging 'racy' emails with Tampa socialite Jill Kelley, a key figure in the scandal that led to the resignation of former CIA Director David Petraeus.*

*A Pentagon investigation examined 20,000 to 30,000 pages of emails he exchanged with Kelley and announced on Tuesday that Allen violated no military regulations regarding the conduct of officers.*

Obama, Tiger Woods Play Golf In Florida

*The president is currently on a three-day getaway in Palm City, Fla. while First Lady Michelle Obama and daughters Malia and Sasha ski out West. Obama arrived at the Floridian, an exclusive golf resort on Florida's Treasure Coast, on Friday evening [February 15], and will return to the White House on Monday [February 18].*

John Allen Exit Latest Fallout from David Petraeus Scandal

February 20, 2013

<http://www.politico.com/story/2013/02/john-allen-exit-latest-fallout-from-david-petraeus-scandal-87820.html?hp=113>

*John Allen's decision to retire instead of pursuing the top U.S. command in Europe opens up a vacancy in one of the most coveted military jobs in the world. The four-star Marine general, who until this month was the top U.S. commander in Afghanistan, officially retained the support of the White House after President Barack Obama nominated him last year to take the NATO command, even after he'd been ensnared in the adulterous web that forced out Petraeus last year as director of the CIA. But even though a Pentagon investigation cleared Allen of any wrongdoing, he decided to finish his tour in Afghanistan and hang up his uniform rather than go through with a postponed Senate confirmation hearing for the NATO post. Neither Allen nor President Barack Obama alluded to the Petraeus scandal in their statements announcing Allen's retirement on Tuesday [February 19].*

**ZetaTalk Insight 2/23/2013:** *Is there a correlation between Obama's weekend of golf, away from Michelle and the girls, and General Allen's resignation? Those watching for the announcement felt the weekend was ideal. Michelle and the girls were in Colorado, as were the Bidens. They were skiing in Colorado, close to the Western White House at Denver. It is customary for the President and Vice President to be separated when chaos might erupt, and rioting in Washington DC could be anticipated after the announcement. Obama was likewise in a safe location away from Washington DC, and isolated, the press kept away, so no one could be sure just what he was up to.*

*Those watching for the announcement have been puzzled at the long delays since Obama set out to break the cover-up last September, 2012. His first attempt on the [Emergency Broadcast System](#) failed because the cover-up crowd cut wires or diverted the flow to radio and TV stations. The second attempt to use an [Oval Office Address](#) failed when the cover-up crowd created confusion with injunctions, questioning whether the announcement was a hoax. [Focus groups](#) then indicated the public would tend to take the announcement as a*

*hoax, due to the long-running cover-up. By this time the pending presidential elections were being threatened, Obama so distracted that he lost the first debate with Romney. The announcement was put aside until Obama's second term was firmly in place.*

*But the team assigned to arrange the announcement did not rest in the interim. They have conducted dozens of false starts to sweep for the opposition, who often lay in powerful positions within the government. We mentioned when the [Petraeus affair](#) forced Petraeus to resign that he and General Allen, as well as other Generals suddenly caught up in scandals, were part of the opposition. But General Allen, who was in line for a plumb NATO promotion, was not forced to resign at that time. He thus was still in a position to throw stones in front of any announcement attempt, due to his stature and influence within the US military.*

*Obama's long weekend devoted to golf was a setup to sweep for such opposition, and use this to force a resignation from General Allen. Allen had just been cleared of any wrongdoing by the Pentagon, a move that was part of the setup. Just what the sweep involved, or what prior sweeps might have involved, is not something we will disclose, as the public's curiosity is not more important than the success of this mission. Suffice it to say that if the opposition thinks the announcement is about to happen, is rolling, is imminent, they will show their hand and make their moves. In successive sweeps, the parties were identified, communicating with each other, and the announcement team can go up the ladder to those at the helm. General Allen was one such leader at the helm.*

## **Super Dome Blackout**

While officials struggled to explain the 34 minute blackout that descended on the 2013 Super Bowl game, one thing was clear. This was no ordinary blackout. The FBI stated that terrorism was not a factor. It was not a deliberate sabotage of any sort. The wiring was new, and functioning perfectly. The blackout was not from an external electromagnetic source, as the surrounding area outside of the dome itself was unaffected. It was not due to an excessive drain on power, as Beyonce had well finished her intermission show, and this had utilized auxiliary lights, not the dome lights. The outage occurred when the second half of the game was underway, and the first half had not resulted in any distress. In addition, when the breakers were reset, the game continued unabated, so the problem did not return. At no time was power from the grid interrupted. Yet there was either a temporary surge or temporary brownout that triggered a breaker, for an unknown reason.

### NFL Says no Indication Halftime Show Caused Super Bowl Outage February 4, 2013

<http://www.reuters.com/article/2013/02/04/entertainment-us-nfl-superbowl-lights-idUSBRE91300U20130204>

*The 35-minute disruption came moments after performer Beyonce lit up the Superdome with a halftime spectacular that officials said was powered by generators and would not have sapped the stadium's electricity. Entergy Corp, the utility providing power to the Superdome, said its distribution and transmission feeders were serving the Superdome at all times. A piece of equipment designed to monitor electrical load sensed an abnormality in the system where the Superdome equipment intersects with Entergy's feed into the building, triggering an automatic cut in power. The halftime show was running on 100 percent generated power.*

### 'Abnormality' Blamed for Superdome Blackout February 4, 2013

<http://www.newser.com/story/162171/officials-abnormality-behind-bowl-blackout.html>

*Embarrassed officials say the blackout that shut down the Super Bowl for 34 minutes was caused by an "abnormality in the system," though they're still in the dark as to what caused it. The Superdome's management company says power was partially cut to isolate the issue after the problem was detected and backup generators kicked in as designed.*

### Super Bowl Blackout: What Went Wrong? February 4, 2013

<http://www.13wmaz.com/sports/article/215593/45/Super-Bowl-Blackout-What-Went-Wrong>

*Entergy, the local electric company, said in a message posted on its Twitter account that there were no power issues outside of the Dome, and the "power issue at the Superdome appears to be in the customer's side."*

Blackouts, caused when breakers trip to protect electrical equipment, can happen during solar flares or due to the electromagnetic interference the charged tail of Planet X can create. In 2003, when the charged tail of Planet X wafted past the Sun and enveloped the Earth, temporarily, there were [numerous blackouts](#), including the notorious blackout of New York City on August 14, 2003. But in these affairs, the outage affects the entire region, not a single building as occurred during the Super Dome outage.

*Aug 14 massive power outage swept across swaths of the eastern United States and Canada*

*Aug 28 power outage during the evening rush hour creating havoc for around 1 million commuters*

*Sep 1 A power outage today blacked out parts of peninsular Malaysia*

*Sep 2 A power outage left at least 3 million Mexicans in the southern Yucatan without electricity*

*Sep 2 Finland, Russia, and overnight power blackout in Sydney's business district.*

*Sep 23 A power outage struck the capital of Denmark and southern Sweden affecting 4 million people*

*Sep 28 much of Italy is without power after a blackout swept the country*

*Oct 6 major power failure blacks out Czech Republic.*

*Nov 7 most of Chile lost power in a major blackout*

Per the Zetas, the Super Dome outage was a warning to the Obama administration that their delays in making [the announcement](#) on the near presence of Planet X, aka Nibiru, would not be tolerated by the Council of Worlds. The gloves were coming off.

**ZetaTalk [Explanation](#) 2/5/2013:** *We explained in March 3, 2012 that the Council of Worlds had [engaged the cover-up](#) in what we called a war, as to allow the Earth changes to proceed as nature intended while the common man was kept ignorant of the cause would interrupt the spiritual lessons the passage of Planet X, aka Nibiru, provides. Punch 1 occurred on March 12, 2012 when the Earth's magnetosphere appeared to [completely reverse](#), though this was only the view provided by NASA's satellites and did not affect the Earth. By June 16, 2012 the Obama administration was formulating an announcement, but due to the efforts of those wanting the cover-up to continue and the pending re-election of Obama, these efforts were put aside until after the election.*

*Now the November 6, 2012 election is past. Potential blocks to the legitimacy of the Obama presidency, such as the Electoral College vote on December 17, 2012, are past, as is the*

*acceptance of this vote by the House in early January. The swearing in ceremony on January 20, 2013 is past. And key positions within the administration, such as Secretary of State, Secretary of Defense, CIA and other less important cabinet appointments are essentially filled or guaranteed to be filled by Obama's nominees. The fiscal cliff is resolved in Obama's favor, with the Bush tax breaks to the rich ended. The debt ceiling has also been resolved, the House allowing Obama to raise the ceiling, at least temporarily. The announcement team is ready, yet Obama is not proceeding, lingering for yet another day or week, as he fears the reaction will be devastating and exhausting.*

*The Council of Worlds has lost patience. The deliberate blackout during the Super Bowl was just a gentle nudge. Punch 2 has been delayed because the Obama administration was dead serious about announcing the presence of Planet X, having NASA explain what they have withheld from the public, having NOAA and the USGS explain how the near presence of Planet X has affected the globe. It is time for the little guy, the common man, to have the same access to information that the elite enjoy. Rather than punish the common man by releasing the full force of the 7 of 10 plate movements, the Council will be punishing those involved in continuing the cover-up, whether friend or foe.*

To bolster the Zeta statement that benign aliens had caused the power outage is what appears to be a capture of a UFO hovering above the stadium just before the blackout. Could this be related?

**VIDEO:** <http://www.youtube.com/watch?v=8N-uNJxjNWQ>

## **Zombie Apocalypse**

After the so-called [Zombie attack in Miami](#) on May 29, 2012, when one man tried to eat the face of another, the term Zombie Apocalypse was used to explain riot-control exercises

where hoards of starving and stumbling citizens would have to be quelled and controlled. Per the Zetas, the term Zombie Apocalypse was used to avoid having to explain how and why the citizenry would be starving and stumbling about.

**ZetaTalk Explanation 9/22/2012:** *How best to get the participants focused when planning exercises on containment when citizens will be starving, rioting, sick and injured, and out of their heads with grief and insanity? Calling this an exercise dealing with a zombie apocalypse puts the participants in the right frame of mind, instantly. There is no parallel in history, to point to. And by making it almost comical, something fictional out of the movies, those calling for these exercises are exempt from having to explain themselves. No need to detail the coming Earth changes and pending Pole Shift. No need to explain why the usual social safety nets will be gone. The zombie apocalypse label is a convenient shortcut!*

Now the term is back, on an Emergency Broadcast System (EBS) alert in Montana warning that zombies were rising from their graves in several Montana counties. The EBS was traced from the KRTV station in Montana back to the CW network headquarters in LA. Was this a prank? Per the Zetas, the perpetrators had given up trying to stop Obama from announcing the near presence of Planet X, aka Nibiru, so they were trying to create the illusion that such emergency announcements are just a hoax. The EBS was the route first selected to carry Obama's announcement on the presence of Planet X nearby. And Montana is in the heart of the cluster of Red States surrounding Dick Cheney's planned Aftertime fiefdom in Wyoming, where the legislation is so taken by his leadership that they almost purchased an aircraft carrier for him in this landlocked state. This use of the EBS is surely a crime, but per the Zetas, the perpetrators will never be found.

Bogus Emergency Alert Message Transmitted  
February 11, 2013

<http://www.krtv.com/news/bogus-emergency-alert-message-transmitted/>

*Someone apparently hacked into the Emergency Alert System and announced on KRTV and the CW that there was an emergency in several Montana counties. This message did not originate from KRTV, and there is no emergency. Our engineers are investigating to determine what happened and if it affected other media outlets.*

KRTV's Emergency Alert System Hacked To Warn Of Fake Zombie Apocalypse  
February 13, 2013

[http://www.huffingtonpost.com/2013/02/11/krtv-fake-zombie-alert\\_n\\_2665469.html](http://www.huffingtonpost.com/2013/02/11/krtv-fake-zombie-alert_n_2665469.html)

*The emergency alert system at KRTV-TV in Great Falls was hacked during the "The Steve Wilkos Show" to send out a message that "dead bodies are rising from their graves" in several counties. The warning also told those watching not to try and apprehend the dangerous individuals, only to get to shelter and stay safe. So far, no one has been able to figure out who did the hacking.*

Someone Just Hacked An Emergency TV System To Tell People Zombies Were Happening  
February 12, 2013

<http://www.gizmodo.com.au/2013/02/someone-just-hacked-an-emergency-tv-system>

*The emergency alert interrupted programming on a local TV station as well as on the CW network and told people that the dead had begun to rise and walk the streets.*

**ZetaTalk Explanation 2/16/2013:** *Frustrated by their inability to stop Obama's plans to announce, some in the crowd that hopes to keep the cover-up going are trying alternative methods. They hoped to create the myth that the announcement, to be broadcast worldwide, simultaneously, is a hoax. All a joke. This was the first, and likely the only, such salvo. If they can't convince the world, they hope to get the myth going in Cheney territory, the red states around Wyoming, so the populace there does not challenge Cheney and friends in their bunker plans, demanding shared resources. The EBS played on a single channel in Montana, but has been traced to headquarters in LA, where the CW network is headquartered. The perpetrator will never be found.*

## **Pope Benedict Resigns**

Holding a post that is traditionally only vacated by death, the current Pope Benedict shocked the world by announcing that he would resign, after having held the post for only a few years. With apparent good health, with a keen mind, the reasons are hardly clear. In his resignation speech, he mentions "rapid changes". Humm.

### Pope Benedict XVI Resigns

February 11, 2013

<http://www.telegraph.co.uk/news/religion/the-pope/9862194/Pope-Benedict-XVI-resigns>

*Pope Benedict XVI has announced he will resign on February 28th, saying he no longer had the strength to fulfill the duties of his office. The announcement was "a bolt from the blue", said Angelo Sodano, a senior Vatican cardinal. The news apparently came as a surprise, even to the Pope's close aides.*

### Pope Benedict's Full Resignation Statement

February 11, 2013

<http://www.businessinsider.com/pope-benedict-resigns-2013-2>

<http://www.businessinsider.com/pope-benedict-resigns-2013-2>

The last resignation of a Pope occurred in 1415, although prior to that seven Popes resigned. It is not common practice, although legal. The Pope normally dies, still serving. That's the tradition. Per the Zetas, Pope Benedict is anticipating an exhausting work schedule, and is ducking out ahead of this.

**ZetaTalk [Interpretation](#) 2/16/2013:** *Of course Pope Benedict is struggling with poor health, he is 85 years old! That he had a minor stroke and is taking heart medication is hardly a reason to resign. The rumors are rampant that Obama is getting ready to announce the truth about Planet X, aka Nibiru, nearby. After months of delay, during which Obama tried to set his house in order, anticipating political chaos after the announcement (when little work would be done in Washington DC), he is again proceeding. The Pope of course is in the loop, and knows what will follow at the Vatican. The faithful will want to be assured of their rapture, the priesthood will want advice, and royalty will want to inquire into special dispensation or powers the Pope may secretly have.*

*In short, the announcement will mean a lot of work for anyone who might be caught as Pope during this time. It is not in this Pope's nature to be that person. If anyone thinks this all seems to be fulfilling Saint Malachy's predictions on the last Pope, we agree! The Catholic Church is already in trouble, a trend started even before all the pedophile scandals. The faithful have long suspected the Third Fatima secret was about the End Times and will resent the obvious lies by the Church elite. It is not just the earthquakes that will ravage Italy and the world during the passage that will end the Church. It will be their failure to lead.*

Indeed, Pope John virtually revealed the truth about the Third Fatima vision in 1980, in Germany. It was not as officially stated by the Catholic Church, that the Third Fatima vision was regarding a Pope's assassination.

### Mel Gibson's Secret Meeting With Fatima Visionary January 11, 2005

<http://archive.newsmax.com/archives/ic/2005/1/11/104058.shtml>

*On the other hand, it should be sufficient for all Christians to know this much: if there is a message in which it is said that the oceans will flood entire sections of the earth; that, from one moment to the other, millions of people will perish ... there is no longer any point in really wanting to publish this secret message.*

Is St Malachy's prophecy about the "last Pope" coming true? According to St Malachy's prophecy the second to last pope will not last long and he shall have a short reign. Malachy's prophecy has proved to be remarkably accurate. Per [Wikipedia](#) on the issue, Pope 108 was to be, per Malachy the "flower of flowers". His coat of arms featured three fleur-de-lys. Pope 109 was to be "from the midst of the moon". His month-long reign began with the moon half-full. Pope 110 was to be "from the labour of the sun". He was born on the day of a solar eclipse and entombed on the day of a solar eclipse. Pope 111 was to be the "glory of the olive". The order's crest contains an olive branch. And the last Pope, Pope 112 was to be "Peter the Roman, who will nourish the sheep in many tribulations; when they are finished, the city of seven hills will be destroyed, and the dreadful judge will judge his people."

### Prophecy of the Popes

[http://en.wikipedia.org/wiki/Prophecy\\_of\\_the\\_Popes](http://en.wikipedia.org/wiki/Prophecy_of_the_Popes)

*The Prophecy of the Popes, attributed to Saint Malachy, is a list of 112 short phrases in Latin. They purport to describe each of the Roman Catholic popes (along with a few anti-popes), beginning with Pope Celestine II (elected in 1143) and concluding with the successor of current pope Benedict XVI, a pope described in the prophecy as "Peter the Roman", whose pontificate will end in the destruction of the city of Rome.*

## Saint Malachy Prophecy Last Pope Next, Destruction of Rome

April 7, 2012

<http://citizenwells.wordpress.com/2012/04/07/pope-benedict-to-retire-soon>

*The internet and Bible prophecy community have been buzzing due to an ancient prophecy attributed to Saint Malachy which predicted some 112 popes culminating in the destruction of Rome, Benedict being next to last. Ratzinger also created a stir when he chose the name "Benedict" seeming to intentionally fulfill the Malachy prophecy's characterization of him as the "glory of the Olive" (the Benedictine order is symbolized by an Olive branch).*

Per the Zetas, there is merit to the prophecy, as Malachy was a genuine prophet and had an accuracy track record.

**ZetaTalk [Confirmation](#) 1/17/2009:** *Many prophets have proven their worth by predictions that have come true. Saint Malachy was prophetic about many popes and those wanting certain confirmation have extended these predictions to the present day popes by tenuous connections. That his list has come close is a credit to his precognitive abilities, which is as we have explained an ability to think logically and project into the future based on past events. Our rule since the start of 2002 has been to decline to comment on the predictions or comments of others unless this other source has some prediction accuracy. Saint Malachy qualifies.*
