EXO TERRA UVB BULB INDEX

1

Check the UVB rating for your animal

2

What is the average distance from the bulb to the animal?

± 12"
± 30 cm

3

Look up the corresponding UVB rating to choose a suitable bulb

Exo Terra's new lighting range utilizes a unique rating system.
 In just three easy steps, it will help you determine which bulb is right for your animal. First, check your animal's star rating on the UV index chart below. Secondly, check your existing set-up for the average basking distance. Thirdly, compare the animal rating and bulb positioning height with those featured on the bulb packaging. If these match, you found the right Exo Terra bulb for your reptile!

Click a bulb for in-depth information on Exo Terra's UVB lighting range:
